

# BUILD YOUR OWN AIRPLANE

## MATERIALS:

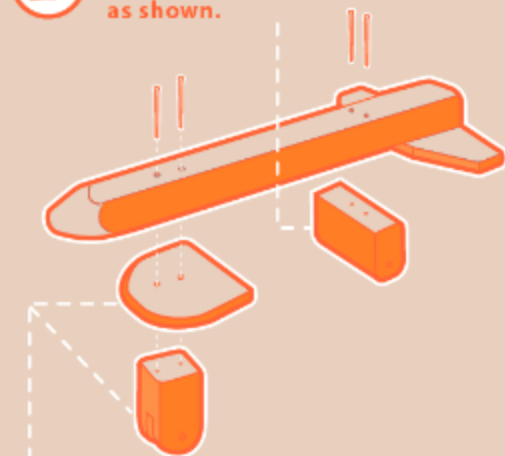

|                       |  |                    |  |
|-----------------------|--|--------------------|--|
| 1 Fuselage            |  | 1 Main Wing        |  |
| 1 Front Undercarriage |  | 1 Horizontal Tail  |  |
| 1 Front Wheel         |  | 2 Vertical Tail    |  |
| 1 Back Undercarriage  |  | 1 Horizontal Board |  |
| 2 Back Wheel          |  | 10 Short Nails     |  |
|                       |  | 4 Long Nails       |  |

**1** Attach the horizontal tail to fuselage using two short nails as shown.

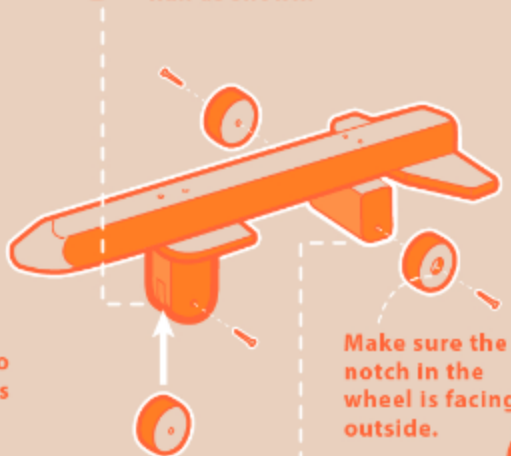

**2** Attach the back undercarriage to the fuselage using two long nails as shown.

**3** Attach the front undercarriage and the horizontal board to the fuselage using two long nails as shown.

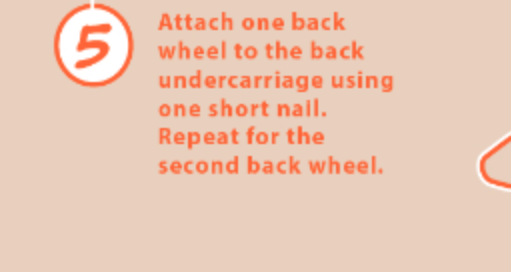

**4** Attach front wheel to the front undercarriage using one short nail as shown.

Make sure the notch in the wheel is facing outside.

**5** Attach one back wheel to the back undercarriage using one short nail. Repeat for the second back wheel.

**6** Attach the main wing to fuselage using two short nails as shown.

**7** Attach the vertical tail to the fuselage using three short nails as shown.

**CAUTION:** Kit contains components with functional sharp points. Adult supervision required. Please dispose of any components if they become damaged after assembly. Use safety goggles at all times. Small parts: not suitable for children under three years.
