

# BUILD YOUR OWN MONSTER TRUCK

## MATERIALS:

|                                 |  |                |  |
|---------------------------------|--|----------------|--|
| 1 Bottom Panel                  |  | 1 Cab          |  |
| 1 Lower Truck Body with Fenders |  | 4 Wheels       |  |
| 1 Upper Truck Body              |  | 2 Axles        |  |
| 1 Roll Bar                      |  | 6 Short Nails  |  |
| 1 Truck Bed                     |  | 8 Medium Nails |  |
|                                 |  | 2 Long Nails   |  |

**1** Locate the bottom panel, lower truck body with fenders and the upper truck body. Use 4 x middle nails to attach as shown.

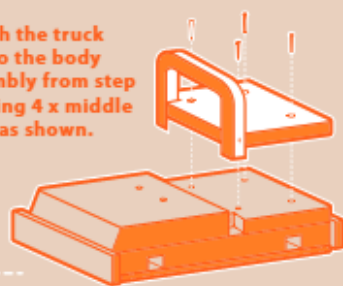

(Match the predrilled holes)

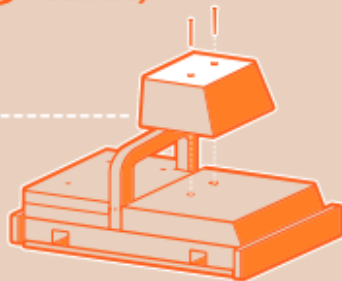

**2** Locate the roll bar and attach it to the truck bed using 2 x short nails as shown.

**3** Attach the truck bed to the body assembly from step 1 using 4 x middle nails as shown.

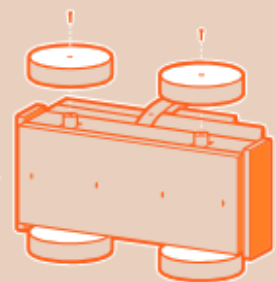

**4** Using 2 x long nails, attach the cab to the truck body.

**5** Attach 1 x wheel to each axle using 1 x short nail as shown.

**6** Slide the axles through the truck assembly and attach the second wheel using 1 x short nail as shown.

**CAUTION:** Kit contains components with functional sharp points. Adult supervision required. Please dispose of any components if they become damaged after assembly. Use safety goggles at all times. Small parts: not suitable for children under three years.
